RECEIVED

Sir:

Pursuant to 37 CFR § 1.181(a), Applicants petition the Commissioner to vacate the Notice of Abandonment and reissue a Notice of Allowance for the above-identified case given that a Notice of Allowance was never received by the Applicants.

In the alternative, if the Commissioner finds the petition and supporting evidence insufficient to meet the standards of 37 CFR § 1.181(a), it is hereby requested that this petition be considered as a petition due to unavoidable delay under 37 CFR § 1.137(a).

Finally, if the Commissioner finds the petition and supporting evidence insufficient to meet the standards of unavoidable delay under 37 CFR § 1.137(a), it is hereby requested that this petition be considered as a petition due to unintentional delay under 37 CFR § 1.137(b).

In the event that any fees are due, please charge our Deposit Account No. 22-0261 and notify the Applicant's attorney. Additionally, authorization is hereby provided to charge the Issue Fee to our Deposit Account No. 22-0261 in order to comply, if necessary, with the

requirements of 37 CFR § 1.137. Again, notification of Applicant's attorney is respectfully requested.

STATEMENT OF FACTS

A Notice of Allowance for the above-identified case was apparently issued by the U.S. Patent and Trademark Office (PTO) on December 2, 2002. However, Applicants never received this Notice of Allowance and only became aware that one was issued when the undersigned received a phone call from the Examiner, at which point the undersigned indicated that he was not aware that a Notice of Allowance had been issued. On June 10, 2004, Applicants received an Notice of Abandonment for failure to pay the issue fee.

Applicants have put forth a good faith effort to prosecute this application both prior to and after receiving the Notice of Allowance. The relevant chronology is as follows.

Notwithstanding the Notice of Abandonment, the last paper received by the Office was a non-final Office Action dated June 4, 2002, to which a response was filed on October 30, 2002. Applicants subsequently filed two Status Inquiries on September 3, 2003 and March 9, 2004. On June 2, 2004, the undersigned received a phone call from the Examiner requesting approval for an Examiner's amendment. The undersigned indicated that he was not aware the application was allowed because a Notice of Allowance was never received. The undersigned further indicated that at this point, the application would be considered abandoned. On June 10, 2004, the Notice of Abandonment dated June 9, 2004 was received.

Applicants now provide this petition under the *Delgar v. Schulyer* standard (*Manual of Patent Examining Procedure* § 711.03(c), p. 700-140) along with evidence showing non-receipt of the Notice of Allowance and request that the Notice of Abandonment be vacated and a Notice of Allowance reissued.

As evidence of non-receipt of a Notice of Allowance, the firm's docket report dated Saturday, March 1 to Monday March 3, 2003 is enclosed (Attachment 1). Also enclosed is a copy of the USPTO incoming mail log from Monday, December 2, 2002 through Friday December 13, 2002 (Attachment 2). The relevant docketing procedures that generated the data of this report are detailed in the attached affidavit of Ms. Carolyn Hopkins, Patent Coordinator at Venable, LLP., which further attest to the accuracy of the report (Attachment 3). Briefly, this procedure consists of the Docketing Department opening all incoming correspondences from the PTO and recording relevant information from the correspondences, including the mailing date of the received notices, in their manual log-in system and the computerized docketing database.

Upon review of this docket report, it is clear that no documents were received with a mailing date of December 2, 2002 for the above-identified case, which has Attorney Reference No. (Docket No.) 32221-153110. Further, the manual log-in system does not indicate receipt of a Notice of Allowance for this reference number, and no payment of Issue Fee due was generated by the docketing system database for March 2, 2003. Ultimately, there is no record of receiving the December Notice of Allowance. The absence of such record, given the docketing procedures in place for opening and recording all correspondences from the PTO, leads to the conclusion that the Notice was lost en route to the Applicants, rather than after receipt by the Applicants.

Respectfully submitted,

Date: July 2, 2004

DECLARATION OF PATENT COORDINATOR

I, Carolyn Hopkins, Patent Coordinator at Venable, L.L.P., verify that all mail received from the United States Patent and Trademark Office is opened in the Docketing Department and all information is both manually logged-in to the department and entered into the computerized docketing system. The manual log-in system tracks incoming PTO documents, recording the docket number, serial number, type of action, inventor name, mail date, and the responsible attorney. The computerized docketing system automatically generates due dates for required responses when receipt of PTO notices are entered into the database. Had the Docketing department received a Notice of Allowance dated December 2, 2002, receipt would have been manually logged-in, entered in the computerized docketing system, and the system would have automatically posted that payment of the Issue Fee would have been due on the docket for March 2, 2003.

I certify under penalties of perjury of the laws of the United States that the foregoing is true and correct.
